Elizabeth Monahan

## BIOGRAPHY

**Dr Lysle Johnston Dds, MS, PHD** graduated from the University of Michigan School of Dentistry in 1961 and from Michigan's Horace H. Rackham School of Graduate Studies (Orthodontics) in 1964. He studied anatomy at the Queen's University of Belfast (1961-2) and received a Ph.D. in Anatomy from Case Western Reserve University in 1970.

Dr Johnston has lectured widely and is the recipient of numerous honours. He currently serves on the editorial boards of a number of orthodontic journals, including both the American Journal of Orthodontics and Dentofacial Orthopedics and the (British) Journal of Orthodontics; was a member of the Oral Biology and Medicine Study Section of the National Institutes of Health; and was a director of the Edward H. Angle Society of Orthodontists.

**Dr José Chaqués-Asensi** received his Ph. D. Degree from the University of Seville in 1995. He has published numerous papers in national and international orthodontic journals of major impact. He has been a guest speaker for National Orthodontic Societies in Europe and Middle East and for Universities in Spain, Europe and USA.

**Elizabeth Monahan B.A Grad., Dip Psy., M.Sc A.P.P.I Reg. Pract. Psychotherapist** has worked as a therapist since 2004, working with adults, teenagers and older children presenting with symptoms such as; eating disorders, panic attacks, bullying, anxiety and depression. Liz regularly presents at conferences in Ireland and abroad.

## COURSE AIMS

- To review contemporary orthodontic diagnostic techniques and philosophies and methodology, in relation to treating Class II Malocclusion.
- To review the contemporary management of Class II Malocclusion in the light of evidence with emphasis on the research behind it & the quality of evidence
- To demonstrate the materials and techniques involved in treating patients using the Forsus fixed functional appliance
- To explain the current understanding of dyspraxia with a view to aetiology, diagnosis, general management and related implications for dental and orthodontic treatment

## LEARNING OUTCOME

Following this meeting, attendees will:

- Be aware of classic ideas and current developments in the diagnosis, treatment planning and management of Class II malocclusion
- Have a clear understanding of the evidence base supporting contemporary clinical practice.
- Have an understanding of some of the newer diagnostic and treatment methods as they emerge. and an ability to critically appraise them and the evidence that supports them
- Understand some of the clinical, academic and ethical challenges facing the dental profession and orthodontic specialty currently and the directions that these may take in the future.
- Understand how to effectively use Forsus fixed functional appliances.
- Have an understanding on how to recognise and provide better treatment for patients with dyspraxia.
